

I would like to say that k-love radio station is very important to me, it gives me encouragement daily as i drive to work and the drive home. listening to the station at home or in the car gives me peace, where i am calm cool and collected as a person. i do not get as upset or mad while listening to teh christ like music that it is. i know thaty a lot of people and surrounding areas listen to love and it brings peace and tranquillity to there lives as well. it keeps us up to date and current events in our area and around the world. it would be a real shame to block out such a dedicated radio station who's only purpose is to reach out the gods children to bring each and everyone of us closer to him. people need a safe place to go to either listen for themself or there children. please dont not allow LPFM stations take precedent over such a loving, caring radio station such as k-love radio station. thank you for your time and please search your heart on this matter. God will let you know what to do he loves us that much.
